

About Crustaceans: A Guide for Children (About... (Peachtree))

Award-winning author Cathryn Sill and her husband, noted wildlife illustrator John Sill, offer young readers a first glimpse into the world of crustaceans. The simple text describes how crustaceans look, how they protect themselves, what they eat, and where they live. The beautifully detailed, full-color illustrations reflect the diversity of the crustacean population from a Sand Fiddler to a California Rock Lobster and present each in its natural habitat. An afterword provides further details on the crustaceans to inspire young readers to learn more.
