

Building a New Nation: The Federalist Era, 1789 1801 (Drama of American History)

Building a New Nation chronicles the development of the new government following the signing of the Constitution. It explores the political views of the young nation's leaders as they struggled to form a strong nation, despite the foreign and domestic dilemmas that they faced. The authors describe the beginnings of the two-party system, the administrations of the first three presidents, and key decisions by each branch of the government that shaped the future of the country.
