

Human Beans-A Book With No Pictures: True Facts Oddly Told (Books With No Pictures 7)

HUMAN BEANS is one side of a serious but fun conversation about what it is to be human... in relation to plants and animals, biology and farming. Its a nice little slice of how the world works. Share it with a child you love. Its that kind of book. HUMAN BEANS is published in the Books with No Pictures Series. As you might expect, books in this series are pictureless but maintain the familiar format of the standard picturebook. Heres why: For children who are used to being read to, the standard picturebook is a comfortable frame of referencea starting point. By removing the pictures (and making no other apparent changes), books in this series emphasize the power of words in storytelling. Together, they form a useful bridge between standard picturebooks and the early readers and chapter books that children soon encounter on the road to reading.Scroll to the top to purchase this book or download a free sample.ABOUT THE AUTHOR:Sage Merriman is the childrens book pen name of former small press editor and publisher, Ryan Petty. Ryan was for many years the proprietor of Cold Mountain Press (Austin, Texas). Among the respected names he published were Allen Ginsberg, William Stafford, Wendell Berry, Denise Levertov, Robert Bly, and two future National Poets Laureate: Ted Kooser and Donald Hall.
