

Solving Behavior Problems in Math Class: Academic, Learning, Social, and Emotional Empowerment, Grades K-12

Reduce the number of discipline issues that arise in your math classroom with ideas from math education expert Jennifer Taylor-Cox. In this book, you'll learn a variety of ways to handle disruptive, disinterested, avoidant, and/or disrespectful students in K-12 math classrooms. Using realistic, case-by-case examples, the author reveals practical strategies for eliminating teacher-student tensions related to power struggles, bullying, disengagement, and more. Contents include: Theories of Blame and Remedy A New Perspective: Empowering Students K-5 Students and Situations Middle School and High School Students and Situations Smart Moves Emphasizing a positive, constructive approach to discipline, this book is perfect for teachers implementing MTSS and for any teachers who want to solve behavior problems by empowering students academically, socially, and emotionally.
