

Mourning a Death in the Family (Family Issues and You)

Dealing with a death in the family is one of the most upsetting things that a young person can face. Whether it is a parent, grandparent, brother, sister, member of the extended family, or pet, this kind of loss can be heartbreaking. This volume discusses the variety of forms that grief can take. It reminds readers that everybody has different responses to the death of a loved one and that those responses themselves change over time. Also discussed is the impact that the loss of a family member can have on the family members who remain. The concluding chapter discusses ways to memorialize and remember family members who have passed away.
