

Teens in Russia (Global Connections)

The Russian Federation has been an independent country since the fall of the Soviet Union in 1991. For Russian teenagers, this change has presented many opportunities. At school, teens are learning about a history that the communist government tried to hide. In their free time, they are learning to express themselves in ways their parents were not allowed. Teens in Russia is part of Global Connections, a series that uncovers the challenges, pastimes, and customs of teens around the world.
