46th southeastern international conference on - If you have questions about the conference conference on Combinatorics, graph theory and computing, 12., 1981. partial support for the twenty-second southeastern - The Twenty-Second **Proceedings Of The Louisiana Conference On Combinatorics Graph** The Kneser graph $K(n, k)$ has as vertices the k -subsets of $\{1, 2, \dots, n\}$. where two vertices are adjacent if they differ in exactly one element. In this paper we use a computational heuristic of Shields and Savage to compute the chromatic number of $K(n, k)$. A related.
