

Tornadoes: The Natural Disasters Series

Tornadoes tear through the land, skipping over one street and devastating the next. This account of some of the most extraordinary occurrences surrounding tornadoes combines their science and the personal stories of survivors and witnesses. This story will blow away the hardest to please listeners. Tornadoes is part of the Natural Disasters non-fiction series that will engage listeners of all ages, including English Language Learners. Nature unleashes its forces without regard to people or property. Blizzards, earthquakes, hurricanes and floods, tornadoes, and wildfires are all featured in this nonfiction series that also relates tales of survival and heroism, with a bit of the science behind these natural phenomena.
