

## Down the Drain: Conserving Water (You Can Save the Planet)

How can you help save the planet? Using a child-centred approach, this series tackles how to avoid creating unnecessary waste and disposing of waste in environmentally acceptable ways. The series focuses on how simple decisions have a knock-on effect for the whole planet. It uses case studies that look at success stories; features Taking Action boxes that provide tips on how individuals can make a difference; and includes Science Behind It boxes that explain scientific principles.
